About the 1810 Prince William County Census

The 1810 Prince William County, Virginia Census has been rearranged in alphabetical order to facilitate quick reference.

Along with the name of the head of household in the original census, the following twelve columns are left to right: white males under 10 years of age, white males from 10 to 16 years of age, white males from 16 to 26 years of age, white males from 26 to 44 years of age, white males 45 and up (then the same five categories for white females), all other free persons (except Indians who were not taxed), and Slaves. These headings do not appear at the top of every page.
